## Briefcase Lock

My briefcase has a four-number combination lock, but I have forgotten the combination.
I remember that there's a 3, a 5, a 2 and an 8 , but not what order they go in.

How many possible combinations are there?
Draw a table to help you find all the combinations.

| 1st number | 2nd number | 3rd number | 4th number |
| :--- | :--- | :--- | :--- |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
